Learners Education
Learn. Achieve. Succeed.

MBA Program Structure & Duration

The Malaysia University MBA is a highly coveted qualification, recognized by employers worldwide. This esteemed degree unlocks opportunities across multiple sectors with global recognition and adaptable skills that go beyond industry limits. Graduates emerge with a strategic mindset, advanced leadership capabilities, and a deep understanding of complex business challenges, positioning them for accelerated career progression and executive roles.

Program Overview

Qualification Level

MQF Level 7: Recognized nationally and internationally, this level signifies a Master's Degree. It ensures that the curriculum meets rigorous academic standards and prepares graduates for advanced professional practice and leadership.

Total Duration

16 Months: Designed for efficiency, this condensed program allows working professionals to earn their MBA without lengthy career breaks. The structured timeline facilitates rapid skill acquisition and application in a fast-paced business environment.

Mode of Study

Online (Blended Learning): Our flexible blended approach combines interactive online lectures, collaborative group projects, and self-paced modules. This ensures accessibility for global learners while fostering a dynamic and engaging educational experience.

Total Credits

42 Credit Hours: This comprehensive credit structure ensures a deep dive into core business functions, specialized areas, and a substantial capstone project. Each credit hour is meticulously designed to contribute to your holistic development as a business leader.

Course Breakdown

- **10 Core Courses:** 10 × 3 credits = 30 credit hours. These courses cover fundamental business disciplines such as Strategic Management, Financial Accounting, Marketing Management, and Organisational Behavior, providing a strong foundation.
- **2 Specialization Courses:** 2 × 3 credits = 6 credit hours. Choose from a range of in-demand specializations like Finance, Digital Marketing, or Project Management to tailor your MBA to your career aspirations and industry needs.
- **1 Capstone Project Paper:** 1 × 6 credits = 6 credit hours. This culminates in a significant research project or business plan, applying all learned concepts to solve a real-world business challenge, often in collaboration with industry partners.
- **Total:** 12 Modules + 1 Dissertation/Project Paper. This balanced structure ensures both broad business knowledge and specialized expertise, preparing you for immediate impact.

What Sets MUST Apart?

Personalized Career Pathways

Benefit from dedicated career counseling, workshops on resume building and interview skills, and access to a robust alumni network, guiding you towards your ideal professional trajectory.

Mentorship & Executive Coaching

Gain invaluable insights from experienced industry leaders through our exclusive mentorship program and one-on-one executive coaching sessions, fostering leadership development and strategic thinking.

Real World Learning Experience

Engage with practical case studies, participate in live business simulations, and collaborate on industry-linked projects, ensuring you apply theoretical knowledge to solve contemporary challenges.

Industry Specific Expertise

Our curriculum is continuously updated with industry trends, and our specialized courses are taught by experts, providing you with targeted knowledge for sectors like FinTech, Supply Chain, and Healthcare Management.

Global Network Opportunities

Connect with a diverse cohort of international students and faculty, attend global networking events, and leverage our extensive alumni presence across various continents to expand your professional connections.

ROI Focused Education

Our program is designed to deliver a measurable return on investment, with graduates reporting significant career advancement, salary increases, and enhanced leadership capabilities within 2-3 years post-graduation.
