Doctoral Modules and Research Training

10 Core DBA Modules

The Swiss School of Management DBA curriculum delivers comprehensive research training through ten carefully designed modules. Each module builds essential doctoral competencies, from foundational research philosophy to advanced publication strategies and viva preparation.

1

REM 710: Introduction to Academic Research

Foundations of scholarly inquiry, paradigms, problem statements, ethics, and proposal design. Develop essential research philosophy and critical thinking for doctoral work.

2

RQT 725: Quantitative Methods & Techniques

Design studies, sample correctly, and apply statistics to produce decision-ready evidence. Master statistical rigor and quantitative data analysis.

3

RQL 725: Qualitative Methods & Techniques

Conduct interviews and focus groups, code data, and deliver rigorous thematic insights. Build qualitative research and data analysis expertise.

4

RTL 730: Guide to Doctoral Dissertation Writing

Structured pathway to craft Chapters 1-5 aligned with doctoral standards. Achieve academic writing excellence and proper dissertation structure.

5

RPR 750: Advanced Experimental Research Design

Plan and analyze experiments and quasi-experiments to establish causality. Master advanced research design and causal inference methodologies.

6

RSM 770: The Fundamentals of APA Citation

Practical mastery of APA for citations, references, tables/figures, and professional tone. Meet academic writing standards with precision.

7

RSM 780: How to Publish Scholarly Work

From journal fit to peer review—prepare, submit, and revise for impact. Develop publishing strategy and academic dissemination skills.

8

RSM 790: Collaboration: The Future of Research

Build team-science skills for cross-disciplinary and industry projects. Master research collaboration for maximum impact.

9

RSM 740: Doctorate Degree Holders Journey

Map post-DBA pathways and career strategy. Plan your career trajectory and explore post-doctoral opportunities.

10

RTH 820: Viva Voce Defense

Prepare a clear, defendable presentation and respond confidently to examiners. Master thesis defense preparation and examination readiness.
